About RSI

4904

Restaurant Services, Inc. (RSI) is an independent member-owned purchasing cooperative serving BURGER KING® restaurant owners in the United States.

RSI was founded in 1991 as the exclusive purchasing agent for the vast majority of products used by the U. S. BURGER KING system. Its primary purpose is to leverage the buying power of BURGER KING restaurants to achieve favorable contracts for food, packaging, premiums, promotion products, supplies, equipment, distribution and related services on behalf of more than 8,300 restaurants.

RSI's Board of Directors is comprised of BURGER KING franchisees, elected by region, one Burger King Corporation representative and one member appointed by the Minority Franchisee Association. The cooperative maintains a close working relationship with Burger King Corporation, with respective roles and responsibilities outlined in a formal Operating Agreement.

RSI works closely with restaurant owners, Burger King Corporation, food and packaging suppliers, marketing agencies, equipment vendors, distributors and information systems providers to streamline and improve the supply chain efficiency

Policy-Based Web Security Model

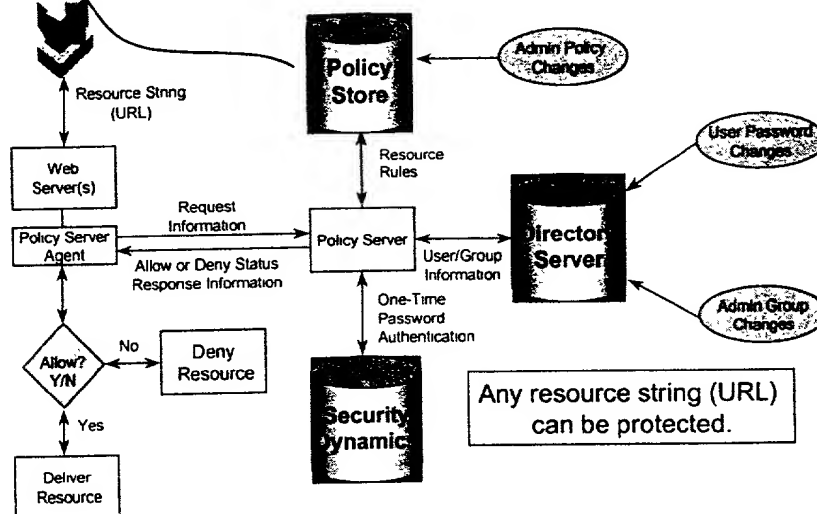

Fig. 79

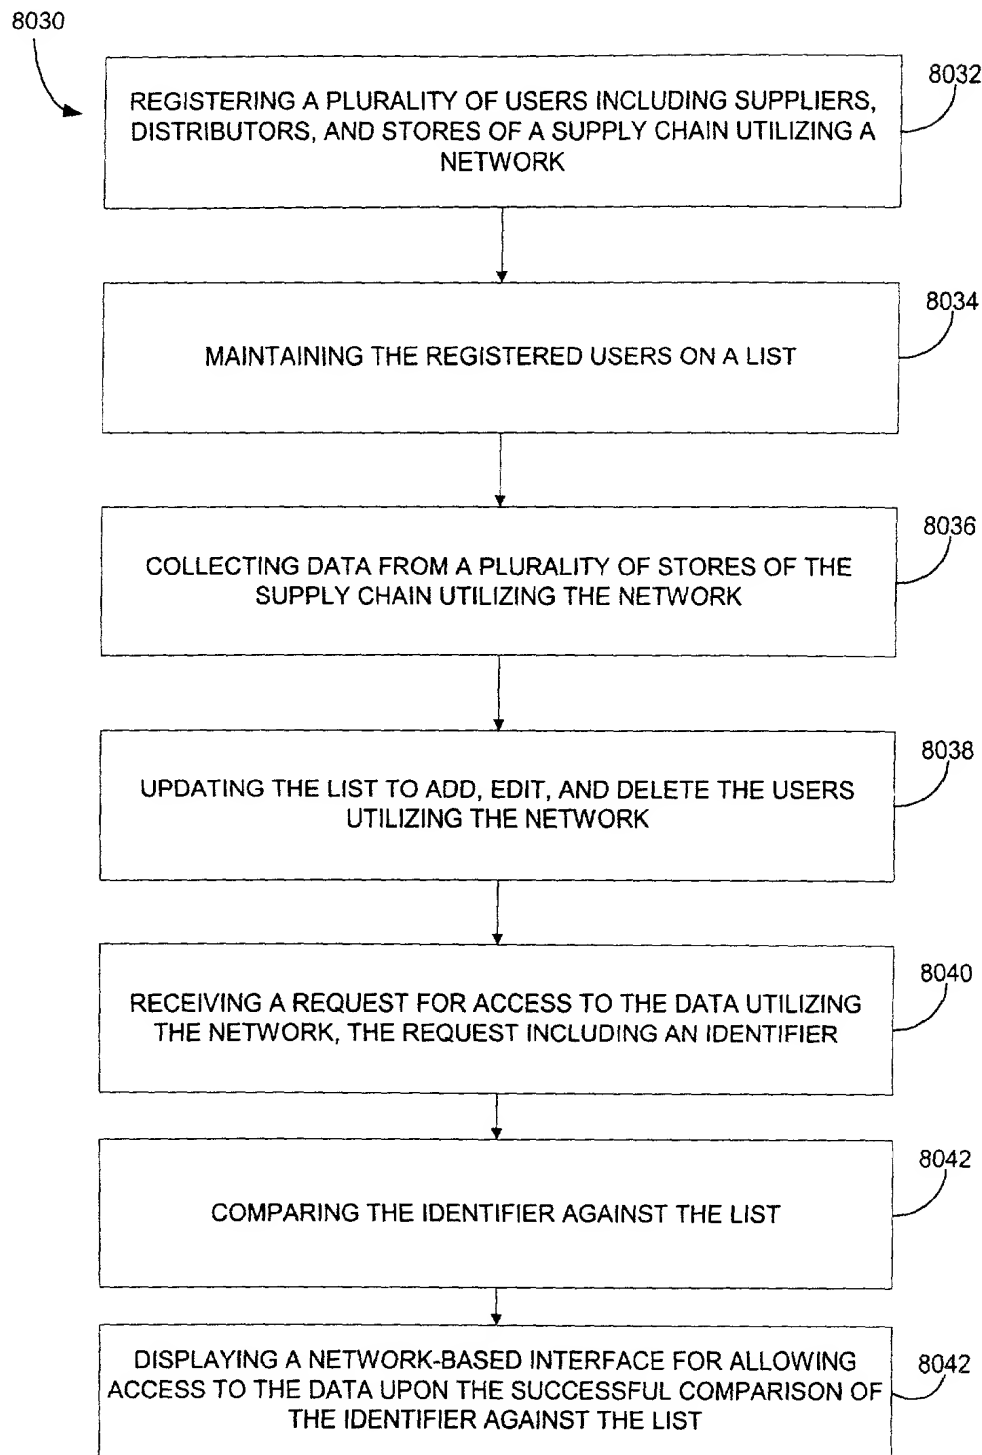

FIG. 80

The diagram illustrates a system architecture for user authentication. It includes the following components and connections:

- Web user (8100):** A rectangular box representing the user interface. It is connected to the central data fields by a horizontal line.
- Authentication Fields:** A central set of text labels: `company_id`, `user_id`, and `password`. These are connected to the Web user and the user preferences by horizontal lines.
- user pref. (8102):** An oval representing user preferences. It is connected to the authentication fields and the Directory by a vertical line labeled `get/set preference`.
- Directory:** A cylinder representing a database. It is connected to the user preferences.
- External Input (8104):** A curved arrow pointing to the authentication fields, representing an external input or request.
